Wall Washer

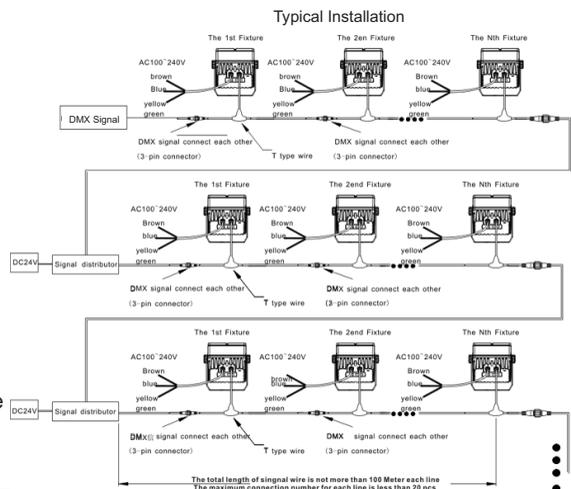

Salvin's New 12 and 24 LED Second-Generation LED Wall Washer adopt 1W high power LED as light source. Main features include novel appearance, low consumption, long life span (fifty thousand hours average life), impact resistance, high reliability, environment-friendly, soft light, high brightness and brilliant colors. This new type of led wall washer is made up of two parts, the light housing and the power supply/ controller housing. What makes this wall washer unique too other wall washers is that this separation allows for a good heat-dissipating fixture, increasing LED life.

LED Colors available are:

Single color units: Pure and warm white, white, red, green, blue with a viewing angle of 30° and RGB color units: Viewing angle is 50°

With it's ,built-in controller, 13 pre-programed light effect can be achieved. You may also connect a DMX controller for remote operation. DMX controller box to achieve the color change control in whole or segments ,such as red、green、blue、jump change、gradual、flicker etc. totally 14 types. It is with digital display window and control buttons to let the user to adjust stand-alone mode more for convenience. Calibrated brackets make aiming multiple units simple and easy.

The IP65 rating make the fixtures suitable for outdoor use.

	Md #	Color	LED Qty	Voltage	IP Rating	Dimensions	Price
	SAL4019	R/G/B	12x1W	100-240VAC	IP65	7" x 4.72" x 6.5" (179 x 120 x 165.3mm) 50° (including bracket)	\$285.00
